

DACOF FAST ~ Pre-Briefing

ALL Obstacles (except the Teeter) are **Bidirectional**

The **Start** and **Finish Jumps** are also **Bidirectional**

Must Start at the Start Jump!

If a Dog accidentally takes another Obstacle before taking the Start Jump, the Dog **cannot earn a Send Bonus** although Points Earned from Obstacles throughout the course and in the Send Bonus Areas will be credited to the score

The Finish Jump is Always Live!

If a Dog takes the finish jump at any point in the run, **your run is finished and completed**, even though you may have planned on taking additional obstacles

ALL THREE Send Bonuses (**Novice, Open & Ex/Master Bonuses**) are available to, and may be attempted by **all classes (Novice, Open & Ex/Master)**

Novice Send will be **Bidirectional** and, **in any order**
(10 Bonus Points)

Open Send must be taken in **One Direction Only**, and **in flow**
(15 Bonus Points)

Ex/Master Send must be taken in **One Direction Only**, and **in flow**
(20 Bonus Points)

Only the **highest point Send Bonus** attained will be **added to the score**

If **NO BONUS** is completed successfully, **all points earned from Obstacles Completed will still be credited towards the score**

However, Dogs **MUST** cross the **Finish Jump** to stop the timer to **earn a score**

If a **Contact is missed** (A-Frame or Teeter) another Obstacle must be taken before reattempting **for points**

Except for the 1-Point Jumps, **Obstacles can only be completed once for points**, but can be taken additional times for flow through the course.

!!! PLEASE - PLEASE - PLEASE !!!

**Do not congregate around the scribe table during
Competition so the Scribe can focus on scoring runs!**
